

FEATURING  
**POWERBAND**  
 TECHNOLOGY

PLUSH

The latest in Sleepyhead technology, the Matrix Plush features the Powerband support system. Featuring Kevlar bands within the mattress at critical lumbar regions, Matrix provides enhanced postural support and alignment.

**FIBRE: WOOL**  
*naturally luxurious*

- Wool is dust-mite resistant and hypo-allergenic, as well as being incredibly breathable and able to help in the regulation of body temperature.

**RE:ACTIVE**  
*pressure relief*

- Responsive memory foam that contours to your body shape quickly.
- Provides pressure point relief to help reduce tossing and turning.

**POWERBAND**

- Powerband is a Sleepyhead innovation which reinforces the already superb ActiveSense support system.
- Kevlar bands across lower back support regions to help postural support & alignment.

**ACTIVESENSE**  
*active coil technology*

- A two-stage pocket coil detects and deflects pressure for enhanced comfort and support.
- Minimises partner disturbance and cradles you in the area's you need extra support.

**ADDITIONAL FEATURES:**

- **Eco-friendly Dreamfoam:** Breathable new generation foam for added support
- **Comfort Edge Support:** Sleep right to the edge of the mattress

Designed and manufactured exclusively for Smiths City.
